EMPLOYMENT

UpWork
Freelance Web Designer/Developer · June 2022 to Current · Regina, Sasktchewan
*Meeting with the prospective clients to review website, and gather the client's specifications for new or existing websites.
*Built designed and maintained a website for concrete-mba.com using CSS, XHTML, Javascript, React.js and etc.
*Preparing multiple designs and wireframes for clients approval before proceeding with development.
*Managing Linux servers using shell access for freelance and client websites.

Pouya Rahyab
Front-end Developer · Nov. 2020 to Jan. 2022 · Shiraz, Iran
*Built efficient and reusable front-end systems using React.js, SQL, HTML, CSS, Docker and JavaScript and ensure user experience determines design choices.

*Identified web-based user interactions along with designing and implementing highly-responsive user interface components by deploying React.js and React Native concepts and worked on maintaining front-end performance, troubleshooting and debugging to bolster overall performance.

*Participated in design and code reviews with other team members, product manager and QA Team using Jira, Slack and Gitlab to recognize and communicate best practices.

*Created and maintained custom APIs by understanding clients' requirements, integrated APIs into different software for efficient operations and tested new software and APIs to identify bugs and modified the codes for improving performance to ensure seamless operation.
